PND Engineers seeks a highly motivated civil design engineer with current E.I.T. or P.E. registration and 1-5 years of professional experience for a key position in our dynamic, multidiscipline Juneau office. The award-winning team in this office performs challenging civil design and construction administration projects with special emphasis in Alaska's beautiful coastal environments.

You will work on a variety of interesting projects, including roadway, utilities and waterfront facility design, project management, and contract administration. You will have the opportunity to gain valuable experience through some travel within Southeast Alaska for design presentation, inspection, or related field activities.

Requirements:

- Bachelor's degree in civil engineering from an ABET accredited school.
- E.I.T. certification in Alaska or other U.S. state with goal to become a licensed professional engineer. Applicants with more or less experience may apply.
- 1-5 years of relevant experience.
- Ability to work seamlessly in a teamwork setting and to direct other engineering staff in an office of approximately 20 engineers and technicians.
- Proficiency in AutoCad Civil 3D, AutoTURN, Microsoft Project and other general software applications.
- Ability to produce accurate, efficient work within budget and time constraints.
- Strong written and oral English skills necessary to communicate with clients, co-workers, and contractors.
- Willingness and ability to perform inspection in a variety of outdoor settings and climate conditions.
- Ability to occasionally travel away from home for a few days to a few weeks at a time using commercial airline, smaller airplanes, helicopters, or boats. Travel expectation is approximately 10-20%.

PND is an Alaska-based, full-service consulting engineering firm with offices in Alaska, Washington, Oregon, and Texas. PND provides civil, structural, geotechnical, coastal and marine engineering, hydrology and hydraulics, construction engineering, value engineering, survey, environmental, permitting, inspection and quality assurance, and research and development services to all sectors, including local, state and federal governments, and private-sector clients.
